ACCELERATING DISCOVERIES,
ACCELERATING IMPACT.

LEGACY GIFT

A will with big impact.

IMPORTANT NOTICE

This document is intended for donors and partners of the Cancer Research Society (CRS). Although the information provided comes from sources deemed reliable, it does not replace expert advice. We encourage you to consult legal, financial, or estate planning professionals before making any decisions regarding a donation. The CRS and its representatives cannot be held responsible for any errors or omissions in this document.

The Impact of Your Legacy on Cancer Research

Including a gift in your will is a simple and thoughtful way to support the Cancer Research Society. This gesture allows you to pass on your values while making a tangible contribution to advancing research for the benefit of future generations.

A gift in your will offers flexibility and peace of mind. It can be changed at any time and allows you to maintain full control of your assets during your lifetime. You may choose for your gift to support a specific area of research or be directed to urgent priorities.

When the estate is settled, a tax receipt for the value of the gift can be issued in accordance with applicable rules, potentially reducing the estate's taxes owed[1].

Taxation of Legacy Gifts

A gift in your will may qualify for both federal and provincial tax credits. Depending on the terms of the gift and the date it is made, the credit can be applied to the deceased's final tax return, as well as to the previous year's return if needed. This can cover up to 100% of net income and help reduce taxes payable when the estate is settled.

When the gift is made through the estate, the estate can generally claim the tax credit for the year the gift is made or carry it forward to any of the following five years, in accordance with current regulations.

Different Ways to Make a Legacy Gift

There are several options for making a bequest to the CRS. Here are the most common types.

Type of Bequest	Flexibility of Bequest	Donor's Current Situation
Specific Bequest	High	Wishes to leave a specific amount or asset
Universal Bequest	Low	Wishes to bequeath the entire estate
Residuary Bequest	Very High	Wishes to leave a percentage of the remaining estate

1 Tax rules vary depending on the type of gift (bequest, beneficiary designation, or gift made through the estate) and the timing of the donation. Professional advice is recommended.

SPECIFIC BEQUEST

A specific bequest allows you to leave a fixed amount or a particular asset to a beneficiary.

CONSIDER THIS OPTION IF YOU:

- Wish to leave a precise amount;
- Want to maintain balance within your estate;
- Want to bequeath a specific asset such as an RRSP, RRIF, or life insurance policy.

THIS TYPE OF GIFT ALLOWS YOU TO:

- Plan a precise and predictable donation;
- Support research without affecting your finances during your lifetime;
- Enable the estate to benefit from applicable tax treatment.

EXAMPLE OF CLAUSE – TO BE COMPLETED WITH YOUR NOTARY:

"I give to the Cancer Research Society (charitable organization registered under the number 11915 3229 RR0001) the sum of _____ dollars, or the assets described below _____, and the Cancer Research Society may use this bequest as it sees fit."

UNIVERSAL BEQUEST

A universal bequest allows you to leave all or a portion of your estate to one or more beneficiaries.

CONSIDER THIS OPTION IF YOU:

- Wish to dedicate your entire estate to a cause;
- Have no direct heirs or have already provided for their needs.

THIS TYPE OF GIFT ALLOWS YOU TO:

- Maximize the impact of your estate;
- Support research in a structured and lasting way.

EXAMPLE OF CLAUSE – TO BE ADAPTED BY YOUR NOTARY:

"I give to the Cancer Research Society (charitable organization registered under the number 11915 3229 RR0001) all the assets of my estate, and the Cancer Research Society may use this bequest as it sees fit."

RESIDUARY BEQUEST

A residuary bequest allows you to leave all or a portion of the remaining estate after taxes, debts, and specific bequests have been paid.

CONSIDER THIS OPTION IF YOU:

- Wish to first ensure the protection of your loved ones;
- Prefer your gift to adjust with the evolution of your estate.

THIS TYPE OF GIFT ALLOWS:

- Great flexibility;
- A donation proportional to the actual value of the estate.

EXAMPLE OF CLAUSE – TO BE COMPLETED WITH YOUR NOTARY:

"I give to the Cancer Research Society (charitable organization registered under the number 11915 3229 RR0001) the entire remainder of my estate or _____% of the residue of my estate, and the Cancer Research Society may use this bequest as it sees fit."

How to Make a Legacy Gift to the Cancer Research Society

1. **Determine the type of gift you wish to make;**
2. **Have your will drafted or updated by your notary, ensuring the Cancer Research Society is named as a beneficiary;**
3. **Inform your executor;**
4. **Notify the CRS of your intention, if you wish.**

Information to Provide to Your Lawyer or Notary

Cancer Research Society

Since 1945, the Cancer Research Society (CRS) has exclusively funded innovative research projects across all types of cancer to better prevent, detect, and treat this disease.

Cancer remains the leading cause of death in Canada. Research advances help improve treatment effectiveness, increase survival rates, and provide hope to those affected by the disease and their families. By planning a bequest, you can turn your values into a legacy for research through a simple and thoughtful gesture.

The CRS regularly supports donors and their advisors by clarifying available options, centralizing administrative processes, and ensuring that the donor's wishes are respected.
